SUBECHHA KARKI

Kathmandu, Nepal | +977 9810329862 | subechhakarki@gmail.com | LinkedIn | GitHub

PROFILE

First-year BSc (Hons.) Computing student at Coventry University with hands-on programming experience across Python, Java, and SQL-based projects. Completed a certified 90-hour international internship program, facilitating peer learning in communication and leadership. Seeking an internship to apply technical and problem-solving skills in a professional environment.

EDUCATION

BSc (Hons.) Computing *Expected Graduation: 2028*

Coventry University

A-Levels — Physics, Computer Science, Mathematics, Chemistry, English Language *Batch of 2025*

NAMI College

- President, Student Council — led initiatives including blood donation drives and donation camps for rural schools in Sindhupalchowk

SEE (Secondary Education Examination) *Batch of 2022 (B.S.)*

Arunima Secondary School

EXPERIENCE

Intern — Fundamentals Program *April – June 2025*

Nobel Internship (Nobel Learning), Remote / International

- Completed a certified 90-hour Nobel Fundamentals program alongside an international cohort of interns, covering internet troubleshooting, web design, pitch & presentation, and leadership
- Facilitated the Pitch and Presentation course for fellow interns from around the world, coaching peers on structuring and delivering effective presentations
- Collaborated remotely with a globally distributed team in a deadline-driven learning environment
- Strengthened public speaking, leadership, and cross-cultural communication skills

PROJECTS

Ora Jewelry — E-Commerce & Inventory Management System *College Coursework, Group Project*

- Acted as Scrum Master, running sprints, stand-ups, and sprint reviews to coordinate the team's Agile workflow
- Designed the full SQLite database schema and contributed across both the Tkinter front-end and the back-end application logic
- Built core e-commerce and inventory management features including product listings and stock tracking

GitHub: https://github.com/subechhakarki/Ora_jewelry_group_project

SmartRent — Property Rental Management System *College Coursework, Group Project*

- Served as Scrum Master and lead developer, running daily stand-ups and sprint reviews across 5 sprints and maintaining the Trello board and Gantt chart
- Designed and normalized the MySQL database (9 relational tables) with key constraints for referential integrity; built renter registration with BCrypt hashing and a property search engine using dynamic SQL
- Developed an OTP-based password recovery system with async email threading, and a lease generation feature using the iText PDF library
- Set up the Git branching workflow and led resolution of merge conflicts across the team

StudyTrack — Personal Study Management App *Personal Project*

- Built a local desktop application in Python with a SQLite database to manage study modules, tasks, and progress
- Structured the app with separate UI, service, and database layers, including login, dashboard, and profile screens; implemented SHA-256 password hashing for authentication

SKILLS & CERTIFICATIONS

Programming & Tools: Python, Java, JavaScript, HTML/CSS, SQL, MySQL, SQLite

Languages: Nepali (fluent), English (fluent), Hindi (fluent)

IELTS: Overall Band Score 8.0

Certifications: HackerRank — Python (Basic), SQL (Basic), Java (Basic), JavaScript (Basic); NVIDIA — Getting Started with AI on Jetson Nano; British Council — Rivers of the World (2019/Grade 9); Nobel Fundamentals Program Certificate
